

DIY Round Face Mask Instructions by beadnova.com

 Main Fabric Right Side

 Main Fabric Wrong Side

 Lining Fabric Right Side

 Lining Fabric Wrong Side

 Sew Line

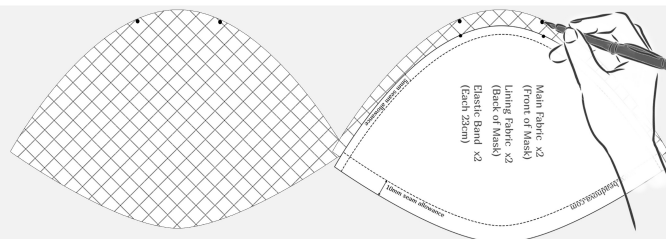

Step 1: Cut the fabric

Fold the main fabric and lining fabric in half, place and follow the provided pattern to cut the fabric. Then, you will get 4 pieces of fabrics.

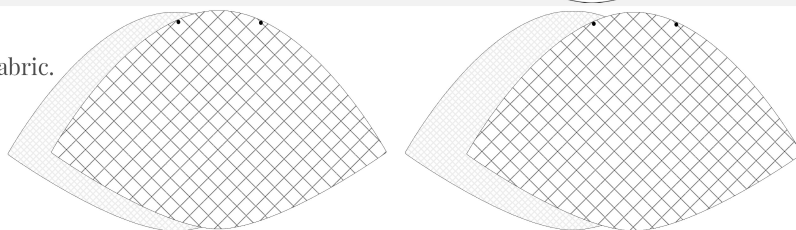

Step 2: Mark the position of elastic bands for ear loop

Mark down the position of elastic band for ear loop on main fabrics. You can find the position on the pattern.

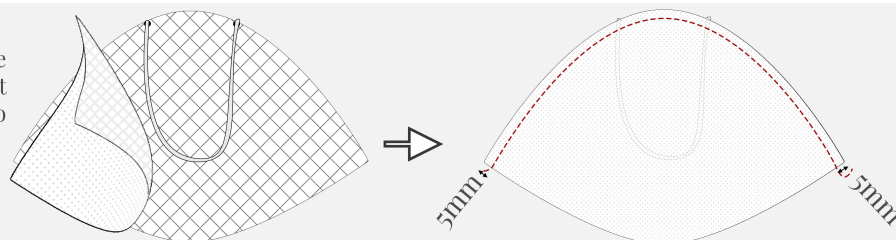

Step 3: Gather two sets of fabric

Combine 1 piece of main fabric and 1 piece of lining fabric as a set of fabric. Right side of main fabric face to right side of lining fabric.

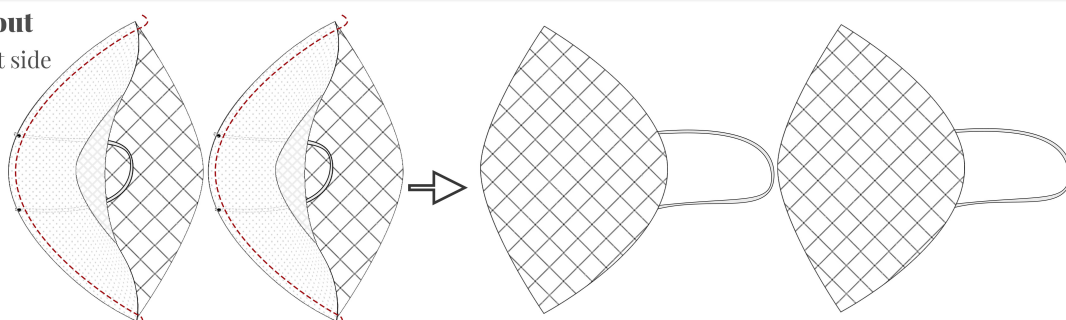

Step 4: Insert the elastic bands

Place and pin a piece of elastic band making a U shape at the marked point inside fabric. Make sure the elastic band is not twisted. Then, sew the edge with 5mm seam allowance to secure the elastic band. Repeat the step for another set.

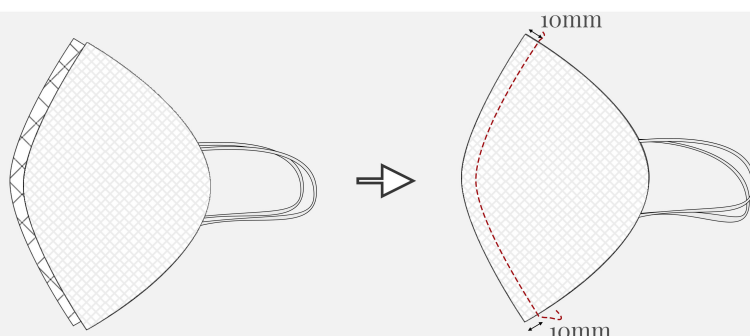

Step 5: Turn the right side of fabric out

After sewing for elastic bands, turn the right side of fabric out both two sets of fabric.

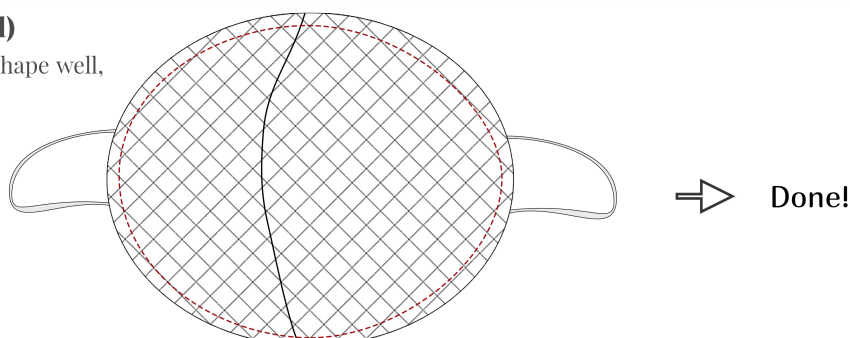

Step 6: Overlap two fabrics and merge the fabric

Place a fabric on another fabric. Main fabric face to main fabric, lining fabric will face to you. Then, sew the edge (opposite from edge with elastic bands) with 10mm seam allowance to merge the fabric to be a face mask shape.

Step 7: Sew around the edge of the mask (optional)

You can sew around all the edge of the mask to keep the shape well, this step is optional.
